

# Neopixel

This is used as an output device to show the amount of toxic gas in the air

- Here 12 Ultra Bright Smart LED NeoPixels are arranged in a circle and it is from Adafruit Industry.
- It can be used as bangles and is famous for its colour changing patterns.
- In this project it is as an Output device which displays the light according to the content ration of toxicity in the air.
- It is a bit costly nearly about Rs.550 but working with it is fun.
